SUMMARY

Software Engineer since 2021 with a Bachelor's in Information Systems by UFRRJ. Skilled in a diverse range of technologies including C#, NodeJS, ReactJS, React Native, Typescript, Docker, Ansible, and Elastic Stack.

WORK EXPERIENCE

Senior Software Engineer, Stage Consulting

Jun 2024 - present

- Coordination and development of applications in ReactJS to interact with blockchain including a platform, a browser extension and a telegram game;
- Development of a telegram game in NextJs for a blockchain project that doubled community engagement and brought more value to the project;
- Developed a telegram bot to monitor blockchain availability and functionalities, generating value to stakeholders and project owners.
- Development and maintenance of a Web3 platform to manage cryptocurrencies.
- Development of new API integrations for insurance applications written in C# and AngularJs. Added significant value to the company's product and increased range of offered products.
- Integration of KYC tool for a banking app using React Native and NodeJS. Saved more than R\$350 thousand for the client company and allowed better management feature.

Developer Analyst, Neopath Integrated Systems LTDA

Jun 2021 - Jun 2024

- Development of an ETL solution using NodeJS, optimizing ticket transformation and reducing maintenance time and costs;
- Engineered a real-time WebRTC ecosystem featuring a React Native mobile client and a C# backend server to facilitate seamless integration with existing desktop infrastructure.
- Created a Python Rest API for OpenAI's Whisper tool (which is open source) to transcript audio, saving the company substantial costs compared to the previous solution;
- Continuously enhanced ASP.NET applications, ensuring a user-friendly interface and streamlined configuration processes;
- Used Docker, Elasticsearch and Ansible on a daily basis to enhance all aspects of the system.

English Teacher, CCAA

Aug 2015 - Dec 2018

- Basic to advanced levels

LANGUAGES

Portuguese - Native

English - Fluent

Spanish - Intermediate

SKILLS

.NET C#	React Native	Java	SQL	CouchDB	Elastic Stack
ASP.NET MVC	ReactJS	Spring Framework	PostgreSQL	JSON	Ansible
Javascript	NodeJS	JUnit	MySQL	AWS	Git
Typescript	Redux	NextJs	NoSQL	Docker	REST API

EDUCATION

Bachelor of Information Systems

Feb 2018 - Sep 2022

Universidade Federal Rural do Rio de Janeiro

- Participated in two development projects that used ReactJS, React Native and Java Spring Boot.
- Development of a Recommender System with Java as Thesis.
